Phone 25

Often the only difference between eccentricity and cussedness is whether we wish to express it politely or forcibly.

### The Way to Save

It is the systematic regularity with which you make small deposits, rather than the occasional banking of a considerable amount, that steadily builds up a substantial financial backing.

Get the habit of definitely depositing. Three dollars saved every week, with interest at 3% compounded semi-annually, in five years will amount to \$841.02.

O. E. S. WHITESIDE AGAIN  
PRESIDENT COAL OPERATORS

### BIGGEST GAME OF THE SEASON ON FRIDAY NIGHT.

O. E. S. Whiteside, manager of the International Coal and Coke Co., Coleman, was re-elected president of the Western Canada Coal Operators' Association at the annual meeting held in Calgary on Friday last. Jess Gouge was elected first vice-president and John Shanks, second vice-president.

Because of the approaching end of the present agreement with the miners on March 1st, some of the phases of the making of a new contract were considered. Inasmuch as the cost of living had declined to about 40 per cent above pre-war times, and the miners' wages are approximately 130 per cent higher than pre-war rates, the operators expressed the opinion that there will be no difficulty in negotiating a new wage scale somewhere about fifty per cent lower than the present one. This matter will be fully discussed at a special meeting which will be called for the purpose at a later date.

Every home in the Crows Nest Pass will be vacated Friday night (tomorrow) for the biggest game of the season, when Bellevue locks horns with the Blairmore team in the Blairmore arena. Already over half the seating accommodation of the biggery has been taken up and hooks are being placed along the trusses on which to hang those who fail to find a standing room. Two thousand people is but a small estimate of the number of fans that will be in attendance and force pumps are being placed in every corner of the arena to help save the lives of those who may become drowned by the victorious rooting.

Both teams will be in excellent trim and the quality of the ice will not be questioned. We understand that Bellevue fans are confident of their success, and that they are bringing the Bellevue silver band with them to help them to victory.

We take great pleasure at this time in congratulating the winners on their success.

BLAIRMORE WINS FROM  
COLEMAN AFTER TYING  
THREE TIMES

BLAIRMORE DEFEATS TABER:  
NOW HEADS THE LEAGUE

The brand of hockey staged on Coleman ice on Friday night last seemed very much of the type suggested by the Lethbridge Herald—a battle royal—and it seems that a team to defeat Coleman on their ice must be prepared to cope with the rough stuff usually meted out there as their only conceivable means of maintaining their record.

About eight hundred fans were present. These were located anywhere from the ice to the tree and hilltops or any point of vantage.

Game was referred by Doc Gillespie of Pincher Creek, who had his hands full. Prompt at 8 the game started, and from that time to the finish Blairmore displayed their superiority as a team. Blairmore scored the only goal in the first period and scored one in the second, while one also fell to the credit of the home team.

The third period opened up with the fastest and roughest play yet witnessed in the Pass. In this period Goddard, of Blairmore, scored immediately on taking the ice as a sub. Capturing the puck at a point near the Blairmore goal, he circled behind the net and in a flash went clean through to catch the Coleman goalie unprepared. This period ended with the score standing 3-3.

Fives minutes each way gave each team another to its credit. Another five each way was played, Blairmore scoring the winning goal about a half a minute from the sound of the gong.

It is admitted by all but Colemanites that the best exhibition was staged by the Blairmore team, who appeared not only to be in perfect trim, but prepared to play the game clean at all costs. Every member of the local team started.

Casualties were numerous from start to finish, and at one period of the game a man from each team was being carried off the ice at about the same time.

Johnson, the Coleman goalie, received a knockout at the commencement of the third period, when the puck hit him full on the nose.

He fell to the ice, and was carried off, being replaced by young Grewett. McTeer,

of Blairmore, entertained the puck for one-hundredth part of a second on the mouth, but apart from acquainting him of the fact that his teeth needed repair, he lost nothing.

Grain is now being shipped over the new extension known as the Canadian Central extension to the E.D.C., which runs from Peace River to Bervin, 25 miles. This branch went into operation this week. Grain receipts at the head of this line the week previous averaged 500 bushels daily.

Hon. George Houlday, Minister of Agriculture, has announced important changes in the "Cow Bill" he will present to the coming session. The chief of these will be that the purchaser of cattle under this Bill must accept a certain amount of financial responsibility from the start.

Great difficulty has arisen in the past that the present provision of the Bill under which the purchaser was free of liability for five years.

and played the game with even greater effect.

The game ended 5 to 4 in Blairmore's favor.

This is the first time in thirteen years that the Coleman senior team has been defeated on their own ice, and our boys and fans have every reason for feeling proud.

### BUSINESS AND AGRICULTURE

The farmers of the nation prepared the ground, sowed the seed and harvested the crop of 1920, under conditions calling for high-priced labor, high-priced equipment, expensive facilities, says the "North American Review". In fact, all expenses were comparable with those of the previous year. Yet they were obliged to take for this crop, which was a larger crop than that of the year previous, some five billions of dollars less. Granted that some method has been devised to reduce the price of farm products gradually, and that we had reduced the value of the 1920 crop but a billion dollars instead of five billion, giving the farmers for last year's crop four billion dollars more than the amount he received at the prevailing prices, what would have been the situation? There are 6,500,000 farms in the United States, upon which there are engaged thirteen million men. These farms are in effect, 6,500,000 separate manufacturing plants, needing woven wire fence, tractors, trucks, windmills, homes with all their equipment, clothing, shoes, lumber for barns, tile for drainage, steel for a thousand different purposes. These plants do as other plants do, namely, buy equipment when they have money to pay for it. Business is but an exchange or a trade of one article of commerce for another article of commerce. The farmer trades his wheat or his corn for a tractor, a truck or other equipment, and the fact that one man buys the wheat and pays for it in dollars, the farmer using the money to pay for the tractor, does not essentially change the situation. Will anyone deny that had the farmer four million orders to place, for a thousand dollars each, had property in the way of agricultural products been valued at four billion dollars more than they were valued, he would have delayed making these trades?

If anyone of us could act as purchasing agent for the farmers of the nation, and had today four million orders for a thousand dollars each to place with the manufacturers for shoes, clothing, implements, trucks, tractors, automobiles, etc., every idle man in America would be put to work manufacturing the goods with which to fill these orders and the manufacturers would have many orders to place with other business concerns for raw material and equipment. The business men of the nation, whose profits are only a charge for the service they render in connection with making these exchanges between agriculture and labor, would have orders. The business man with orders could pay his banker; labor employed would patronize the retailer; the retailer would buy of the jobber and manufacturer, and "business" would be in a very different situation. The lost labor of three million idle men, and the profits business men did not make on orders not received, would be traded for the farmers' crops. Were the trades made, the farmer would be benefited by the extra equipment, labor would be employed in making it, and business men would profit in making the exchanges.

A series of poultry meetings has been arranged by the Department of Agriculture, under the direction of J. H. Hare and Jas. Shackleton, as follows: Blacks, Jan. 23; Vulcan, Jan. 24; Champion, Jan. 25; Carmarthen, Jan. 26; Baron, —an; 27; Rockford, Feb. 6; Munson, Feb. 7; Craigmyre, Feb. 8; Hanna, Feb. 9; and Richdale, Feb. 10.

We have heard of a number of very funny things in the administration of justice. But we believe that the recent order to the Provincial Police to prosecute all owners of automobiles who have no license after the end of January whether they use their car or not takes the prize for injustice. It is about the most ridiculous order we have ever heard and will be unanimously condemned and the sooner it is rescinded the better.

There are dozens of people who purchased cars when we enjoyed a few prosperous years some time ago, who cannot afford to use them now. It would be the rankest kind of injustice to force them to pay a license when they cannot afford to do so, and are not using their car. It would also be an injustice to force them to sell at an enormous sacrifice.

We believe this order is the result of people using their cars without a license and borrowing someone else's plates for the trip. We don't approve of this practice, but think that some other means of combating it should be found.

Fortunately it is one thing to make a law and another to carry it out, and fortunately we have many officers of the law and level headed Justices who refuse to carry out the law to the letter and who mingle a good share of common sense in their administration of the law's commands and we don't expect that there will be many prosecutions under this ruling. — Taber Times.

### A FEW BIG FACTS

Few of us realize the magnitude of Canadian industries until some pamphlet digs up the facts and throws them at us. It is part of our Canadian citizenship to be proud of this knowledge and to disseminate it wherever and whenever possible.

Canada with only 1-13 the population of the United States grows one-fourth as much wheat as our southern neighbor.

600 Canadian flouring mills have an annual capacity of 35,000,000 barrels. The largest flour mill in the British Empire is the Maple Leaf Milling Company's plant at Port Colborne, Ontario. It has a daily capacity of 12,000 barrels.

The total number of grain elevators in Canada in 1921 was 3,355, with a total capacity of 231,218,000 bushels. The largest combination grain elevator in the world is at Port Arthur, Ont., and has a capacity of 10,000,000 bushels.

In 1921 Quebec produced 70 percent of the Dominion's maple sugar and maple syrup. The amount of sugar produced was 16,615,141 lbs. and 1,449,649 gallons of syrup.

Canada is third country in the world in forest resources, only Russia and the United States exceeding our area. The approximate area of Canada's commercial timber is 900,000 square miles.

Of 300,000,000 acres of land suitable for agriculture, in the Dominion, only one-third is now in farm holdings and only one-sixth is under cultivation.

Receipt of four new mail subscriptions from Coley this week speaks favorably for the Enterprise.

Baize is such a scarce commodity in Blairmore just now that the professional bootlegger is asking his patrons to cough up.

Raymond Poincaré, former president, has been chosen to form the new French government, following the resignation of Premier Briand.

Mrs. Marquis returned to Pincher Creek on Monday, after a few days visit here with her daughters, Mrs. L. Morgan and Miss Marquis.

Fred Johnson, who has recently sold out his gent's furnishing business at Fernie, is spending the week in Blairmore. Mr. Johnson, a brother of R. T. Johnson, of the firm of Johnson & Cousins, Bellevue.

#### Coleman Happenings

A new baby arrived at the home of Mr. and Mrs. Joseph Peverell on Sunday last.

J. S. Pizer was confined to the house on account of a severe cold last week, but we are pleased to see him about again.

Jack MacDonald, of the Empire hotel, was a guest at an invitation party held at Blairmore last week end.

The annual business meeting of the Institutional church was held on Monday evening, January the 16th, when all matters were satisfactorily settled for another year.

Little Betty Nash, daughter of Mr. and Mrs. Jack Nash, passed away on Monday morning. Betty was quite well on Saturday, but was taken ill on Sunday with group.

Mrs. Alice McLeod, of the public school staff, had her tonsile removed on Saturday, and although still off duty, she is recovering nicely from her operation.

We are all very much pleased to have Mrs. Scott back in Coleman again. Mrs. Scott returned from Rochester last week with her own private nurse, Miss Shand, and is very much improved in health.

Mrs. T. P. Shields entertained a number of the ladies in her cosy flat on Saturday evening. Bridge was indulged in during the evening. Mrs. W. E. G. Hall won the first prize, and the consolation prize was won by Mrs. Alex Morrison.

Ap. Arab will not walk on the street with his wife.

A joint meeting of the council and school trustees was held on Monday night to consider the employment of an assessor for 1922.

Mrs. Rees, of Lethbridge, was a guest at the home of Mrs. J. Davis this week. Mrs. Rees is taking up residence in Coleman.

Wilfrid—"Oh Annie, dear, I've had something hesitating on my tip for some time now, and —"

Annie—"Oh, Wilfrid, how I do hate those little ma-setscher!" —Puck.

Local provincial police took occasion to intercept some of the local parties who visited Fernie on Sunday last, on their return on the evening train, and whiskey of good variety was found in possession of eight men. The booze, together with sufficient funds to guarantee their appearance when called upon, was taken by the police, and next day, the eight men were obliged to cough up substantial penalties, as well as suffer the loss of the jolly stiff —Puck.

A loud mouthed woman is perhaps lucky in having at least a bottom to her mouth. At Coleman on Friday night last, a flying pick entered a woman's mouth while she was yelling excitedly. She quit shouting for the time being, and Pozzi, our local contractor, has since been busy reinforcing that woman's neck with trusses similar to those suspending the roof of the Blairmore arena.

An item in the last issue of the Salvation Army War Cry states: "It has been decided to transfer the corps from Coleman to Blairmore, a village four miles to the east, where there has been opened in the old Blairmore opera house, which has a seating capacity for four hundred." We have to have to contradict the War Cry, but Blairmore is not a village by any means and the majority of people here have every reason to feel that they are residing in a community just as important as the majority of small cities in western Canada. Also that the old opera house has such seating capacity that the Blairmore "four hundred" could be crammed into the ticket room.

#### A Simple and Inexpensive Humidifier

The uniform adjusting of atmospheric conditions is fast becoming recognized as a big factor in the efficient and satisfactory operation of the printing press.

When it's hot we want it cold, when it's cold we want it hot, always wanting what it's not.

In many instances climate is an unrelenting enemy, and in many others it is a steadfast friend.

The general demand seems to be for a higher percentage of humidity during the winter months. This can be secured by heating a brick or tile channel about a foot square down one or both sides of the room. The channel thus formed should be filled with earth and a steam pipe imbedded a few inches from the surface. This will keep the earth warm, while water from a perforated pipe placed over it drops into the channel and keeps the earth moist. It will be observed that this furnishes a perfectly natural humidity such as we have on a warm day following a rain storm in the summer time. The humidity and temperature are adjusted by valves which control the steam and water supplied to each channel. Temperature humidity may be obtained by sprinkling the floor with boiling water, because hot water vaporizes much quicker than cold water does.

—

Two ladies gay met a boy one day, His legs were blisters scratched; His clothes were blue, but a nut-brown boy.

Marked the place where his pants were patched.

They bobbed with joy at the blue-clad boy.

With his spots of nut-brown hue, Why didn't you patch with a color to match?

They chuckled, "Why not in blue?" Come, don't be coy, my nut-brown boy, Speak out!" and they laughed with glee.

And he blushed rose-red, while he bashfully said:

"That ain't no patch; that's me."

"Hark the herald," Torie sings, "William Lyon Mackenzie King! Peace in Canada a little while In political tank and file!"

Another carload of beer was seized by the provincial police this week.

J. A. Kelly referred the game at Pincher Creek on Monday night.

"Saying it with flowers" doesn't greatly interest the team whose funeral it happens to be.

It is reported that the Quebec liquor commission plans to open a wine shop for women, which will be managed by female employees. Wine will be the only beverage sold. The purpose is to make it possible for women to purchase wine without being compelled to mingle with men.

A Pittsburgh man applying for divorce, charges his wife with cruel and abusive treatment, because she hit him in the face with a handful of mud. The jury, it seems, are strongly inclined to feel that a wife cannot be blamed because a man refuses to open his mouth.

In addressing the graduates of Stevens Institute, Hoboken, Charles M. Schwab said: "I would be willing to give whatever of fame or wealth that has come to me if I could be one of your boys. I am not a prophet, but I know that the greatest era in the history of the world is dawning, and to men like you will come the opportunity of making yourselves invaluable in the rebuilding of civilization."

Hamilton, Ontario, is now moving to see what can be done about getting a share of the amusement tax collected in that city. There is involved in this collection of revenue a large sum of money as well as a principle of provincial interference with civic rights, which should put communities everywhere on the aggressive for both the money and their rights. Admittedly, provincial needs are many, and admittedly, they compel resort to new forms of taxation, but that is not a reason for depriving the municipalities of a revenue source for which they have as great a need and a greater right.

#### Cowley Happenings

Mrs. Harian Lank, of North Fork, is a Calgary visitor.

H. C. Triest, of Lundbreck, was a business visitor here on Tuesday.

The school trustees held their annual meeting in the school house on the 14th.

Several of the Cowleyites were to leave last Monday to witness the hockey game.

The dance held in the hall by the Cowley citizens on Saturday night last was well attended. An enjoyable time is reported.

Miss Rosamond Blackburn, of Lundbreck, was a Pincher Creek visitor on Saturday. She spent Sunday visiting with friends here.

Mrs. Hodson and children, who are on their way to Montreal from Nelson, B. C., stopped off here for a few days' visit with old friends.

We understand that the Women's Institute will furnish the supper for the dance, which will be given by the Banff orchestra on the 12th.

Miss Clara Franz, who was accompanied by her father to Lethbridge on Monday, was operated on for appendicitis. As far as we can learn, she is favorably progressing.

On Sunday evening next, at 7.30, Rev. W. H. Day will demonstrate the life of Christ by lantern slides. We would like to see everyone present.

The whist drive held here on Wednesday night was very successful. The lucky prize winners were Paul Hargrove (pair of silk socks), Mrs. Latta (beautiful dish) and Clarence Gilmor the books prize.

A friend of ours, writing from Hamilton, Ontario, states: "Having been a one-time resident of The Pass, many years before coming east, but keeping in touch with the west by the aid of the Blairmore Enterprise, I was desirous of obtaining some photographs, and noticing an advertisement in your paper of O. and N. Brindley, of Coleman, photographers, I have obtained from them a collection of some of the finest pictures I have ever seen of The Pass and the Canadian Rockies. Professional photographers here and in Toronto have congratulated me on getting such good work done in the west."

A young man at Greenwich, Nova Scotia, was recently punished for having killed a curlew. Curlews are being protected till 1928. Formerly three species of the bird traversed the Canadian shores in spring and autumn, and from their breeding places in the far north. Today the European curlew has vanished and the long-billed curlew is exceedingly rare that they are seldom seen. The third variety, the Hudsonian curlew, is still along regularly in spring and fall along the migration routes, but their numbers have been sadly diminished.

## Marvels Of Science

Light Has Been Weighed and the Earth Weighed

One of the latest marvels of science in the discovery of a method for weighing the earth.

The scientist's apparatus, Lord Chifford of Chiswick, in a London passage, "collects the ultra-violet rays during the hours of light and diffuses them in an otherwise dark room at night. The effect is almost that of bright daylight, except that no centre of light can be traced."

Thus the time may not be far distant when, for those who wish it, night may be abolished, and life become one unbroken day.

No less marvellous is it that it should be possible to weigh the earth we live on; and yet this has been done by the simple medium of a balance, from each end of which was suspended a fifty-pound weight, with a block of metal weighing 250 pounds placed beneath one of them.

By the man, Professor Foyting, the famous scientist, discovered that the density of the earth is approximately five and a half times that of water—from which discovery it was comparatively easy to calculate that the weight of our planet is roughly 6,000,000,000,000,000,000 (six trillion) tons. When we consider that a million is to a trillion as one second is to 30,000 years, we get a staggering idea of the earth's weight.

As well as this, science has discovered the secrets of stars so remote that, compared with them, the sun, though it is some 93,000,000 miles from us, is a "next-door neighbor." Although the star Arcturus has a volume equal to a million suns, and is ten thousand times brighter than our own, great luminosity is not to be seen from that a ray of light which leaves it today and travels at a speed of 186,000 miles a second, will not reach us until the spring of 1947.

## Men Who Outrun Horses

New Mexico Indians Have Wonderful Powers of Endurance

In the days of the "Wild and Wooly West," plainmen and travellers by overland wagons had to be bold that long journeys could be made more speedily by man than by horseback. In the U.S. army the impression is general that the infantry can out-travel the cavalry, on long, grinding marches, but to Santo Domingo Indians of New Mexico belongs the credit of chasing wild horses over the ranges of hills until the animals are exhausted and submit to capture.

No marathon runners have ever been recruited from this tribe of Pueblo Indians, for the wonderful power of endurance of the runners of the tribe are little known outside of the district immediately surrounding their village.

These runners of the Santo Domingo come from a race of fleet-footed ancestors. Like all tribes of American Indians, they have accepted the means of travelling best suited to the country where they live. The Sioux of the Dakotas are horsemen. The Santo Domingos have been walkers and runners always. Their physique shows the result of generations of footmen. Great chests, almost abnormal in development, slope downward to slender waists, while sinewy calves proclaim the strength to hold to a hard trail.

Finally their chasses of the bands of wild horses owned by the tribe are matters of necessity. The enormous stretches of broken country where the horses graze, and the untamed spirits of animals, many of which have not been touched by man in their several years of existence in the hills, make it necessary to wear the creatures out and run them down.

## Sir Adam Beck

Understands Horses

Model Soldier's Mount Take' Correct Attitude for "Charge!"

In the early winter of 1915, in the military camp in Queen's Park, London, Ont., a soldier was very anxious to have his photograph taken mounted on a horse. But his comrade with the camera was having a hard time getting the horse to stand just right, pick up his ears, and have the correct attitude generally for a soldier's "charge."

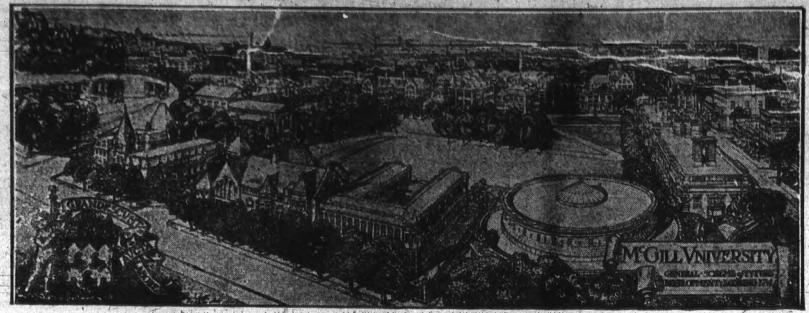

Suddenly a gentleman who had been standing by for some minutes watching them, exclaimed: "Let me help you!" They agreed, and he added: "When you are ready let me know."

The photographer told him when he was ready, and the gentleman, taking off his Christy hat, banged it twice on the ground, causing the horse to prance up on its ears.

In the meantime the shutter clicked, and then Sir Adam Beck for it was, walked away smiling.

A man never realizes what a sponge he is until he falls into a puddle of water.

## Winter Flowering Bulbs

How Flowering Bulbs May Be Cultivated During the Winter Months

Instruction and advice on their growth and treatment.

Given a good basement and abundant window space in the living or spare rooms of an ordinary home, where the indoor temperatures are not permitted to register more than six degrees of frost at any time, and it is possible to have bulb bloom from December until springtime. So says the superintendent of the Dominion Experimental Station at Vancouver, B.C., who, judging by a bulletin on "Bulb and Bulb Bloom" recently issued at Ottawa, has exhaustively tested into this subject, as well to count on his own observations and from White, narcissus and Freesia, he says to supply indoor bloom up to the end of January.

After February 1, the Dutch hyacinths and early varieties of narcissi should be relied upon.

All that is needed are some bulbs of a good variety, firm and of good size, flower pots, pans or boxes, some fine garden loam, sand, well decayed manure, and a little industry and intelligence.

Lists of desirable varieties of hyacinths, tulips, narcissus, lilies and other bulbous plants for indoor and outdoor culture are given in the bulletin along with instruction as to the methods that should be pursued.

In districts where there is outdoor culture, planting should be done in September, well protected. The bulletin also contains particulars as to fertilizing, harvesting, curing and storing over winter, besides giving information on the way bulbs may be propagated.

## East Meets West

One Can Learn Many Things From the Orient

"East is east and west is west, and never the twain shall meet." Neither do dawn and sunset meet, yet each is a part of the perfect day, and the sun-dawn skies are no less glorious than the flaming dawn. The Orient is older than the Occident and from her we have much to learn.

Also we have much to teach the Orient. For her philosophy we shall send her our inventive genius and thoughts that make for vital progress. She shall teach us reflection, we shall teach her the joy of action. For all that we take from her in material, mental or spiritual wealth we shall give her full return; for all that we give to her she shall return in ample compensation.

Truth, the east and west have already met on the common ground of fraternity—and, please God, their friendship shall be everlasting.—Los Angeles Times.

## A New Triple Alliance

We believe that no national action

would more certainly ensure the peace of the world than a formal pact between America, England and France.

Such an alliance, we believe, should be formed as may desire inclusion, in an alliance sworn to maintain peace.

Such a compact must, of course, assist in the settlement of all causes of quarrel among themselves. In which event the question of the limitation of armaments would assume another and a much more hopeful aspect.—London Morning Post.

Photographing Bullets in Flight

By means of the camera, it is possible to arrest the swiftest bullet in full flight. An electric "spark," the duration of which is one-twenty-five millionth of a second (that is roughly the same fraction of a second as one year of a year), has enabled Professor Boys, F.R.S., to take photographs of rifle bullets travelling at twenty times the speed of an express train.

Old Type Thresher Still Working

There is at Standon, Dorchester County, Quebec, perhaps, the oldest type of thresher on record that still goes into use in Canada.

The machine, with the exception of the priming parts, is made entirely of wood.

The seat of its power lies in a large wooden wheel, which is carried around in a circle on the backs of a pair of huge red oxen.

This power is transferred by wooden rollers to the primitive "beater," within the barn.

## Not Pats of Approval

Wife—"Joe, your mother got talking this afternoon about what kind of a boy you were. She said your school teacher used to pat you on the back nearly every day."

Hub—"That's true, my dear, but generally the patting was too low down for comfort."

## Boston Phraseology

"Lay down, pup. Lay down,

That's a good doggie. Lay down, I tell you."

Mister, you'll have to say "Lie down." He's a Boston terrier."

## Extent of His Generosity

Small Girl—"Give me a bite of your candy, Jimmy."

Small Boy—"No fear! But you may kiss me while my mouth's sticky."

## Reminded Him

The Professor—"Yes, a caterpillar is

the most voracious of living things.

In a month it will eat about 600 times its own weight."

Dear Parent—"Whose boy did you say he was?"—Pearson's Weekly.

## The Age Of Methuselah

He May Not Have Lived So Very Long Is Opinion Now

There is nothing whatever disclosed by history or scientific research to indicate that the span of human life at any period was much greater than the Psalmist's limitation of three score and ten years, writes Emmett Campbell Hall, in the New York Evening Post. There has always been a certain amount of doubt, even among the most ardent believers in the literal truth of all Biblical statements, as to the great ages attributed to the patriarchs—Methuselah, for example, for instance.

The problem of making these long periods acceptable to the reasoning mind is not, however, so difficult after all, even without attempting to dispute the accuracy of the Bible figures. It resolves itself into the simple question of how long was a "year."

In earliest times the moon was used for reckoning time, and there is a well-supported theory that the period of a single lunation was the greatest measure of time used; in other words, that a "year" was the "period of a moon-cycle, or 29½ days." Thus Adam's 930 "years" of life worked out as 75½ years as we know them, or 2,265 days, which will please most persons as a much more reasonable figure.

Figured on the same basis, Methuselah was actually 75½ years of age at the time of his death, a very advanced age for Eastern lands. David placed the reasonable maximum of life at 70 years, and it is incredible that such changes could have taken place between the times of the earlier patriarchs and David's generation as to reduce the life of man by eleven-twelfths. It is to be noted however that in the earlier writings no reference is made to divisions of a "year" which would correspond to months.

The year in the marshes of time is supposed to have been through the discovery of the equinoxes on spring and autumn, when day and night were exactly the same length. This would give a year consisting of five months of 30 days each. On the basis of a year of 150 days, Abraham's 175 years would last at 72 and Isaac's 180 years at 74.

The twelve months' year began with the Egyptians, who say that a complete period was made up of two of the previous "years," in one of which the days were longer than the nights, and in the other the nights longer than the days.

C. D. MacIntosh, district superintendent of the C. P. R., was in town on Tuesday. We understand on C. D.'s visit, that there is a rumor current that the popular local will be removed, probably some time in February.

A Latibridge Uninman, a passenger on Tuesday morning's train, passed with such felicity that he originated underneath his seat. The fire apparatus was soon brought into commission, no serious damage resulted.

Extracting tips from the city, is not numbered among the city's. By the law a man becomes tipsy he has nothing to pay left.

Quite a number of cases of diphtheria have developed in Lethbridge during the past week and already several deaths have resulted.

J. E. Terrell, of the Terrell Florist Co., has been elected chairman of the Lethbridge public school board.

#### CROWS' NEST PASS HOCKEY LEAGUE SCHEDULE, 1921-22

Thursday, 2, Pincher Creek at Bellmore.

Monday, 6, Lethbridge at Pincher Creek.

Monday, 6, Bellevue at Taber.

Wednesday, 8, Coleman at Blairmore.

Monday, 13, Taber at Lethbridge.

Monday, 13, Pincher Creek at Blairmore.

Wednesday, 15, Bellevue at Coleman.

#### ALLEGED JUSTICE

#### Premier Endorses

#### RED CROSS DRIVE

According to the Raymond Recorder and other reliable authorities, a reputable druggist was fined \$185.00 and costs for having eight ounces of liquor in his possession in excess of the quantity he was supposed legally to have. Druggists get their liquor supplies from the Government and they issue the same on doctors' prescriptions to patients. Some times a prescription calls for a teaspoonful, more or less, of liquor. Yet it seems that the druggist, in order to comply with the regulations, must not have in his possession one ounce too little of one ounce too much. The Raymond druggist's defense was that a trivial error had been made in the records. This was a reasonable explanation. Probably a clerk had in a hurry entered the same prescription twice, thus accounting for the eight ounces excess. Yet in spite of this, the ridiculous fine of \$185.00 and costs was imposed. We hope that before another citizen of Raymond is guilty of a trivial mistake that the Attorney General will have found a dispenser of justice who can hold the scale more evenly.

A few weeks ago a couple of prohibition spotters entered a drug store in Lethbridge and tried by every possible argument to secure an ounce of alcohol without a prescription, pleading, among other arguments, that it was required for an urgent case. The ruse, however, failed. If such despicable methods must be resorted to in order to enforce the liquor law, the sooner it be repealed the better.—Ex. 5.

We learn that arrangements have been made for the play-off between Lethbridge and Bellevue to take place on the Blairmore arena on Friday night of next week. This will be some game.

Warren Mackenzie, of Vancouver, was a visitor with Mr. and Mrs. L. H. Putnam this week.

The Red Cross Society of Alberta, by arrangement with the Government of Alberta, has been in charge of the distribution of clothing to the residents of the drought stricken areas where needed. The Society now finds that the funds for this work have been exhausted, and it is opening a campaign for the raising of from \$30,000.00 to \$40,000.00 for the payment of clothing already purchased, and for the carrying on of this work for the balance of the season.

I have no hesitation in giving this appeal my hearty endorsement. The work of the Red Cross in the distribution of this clothing in the drought areas has been of inestimable value. The need for clothing is a very real one and I am confident that the good existing now in the south for clothing only needs to be drawn directly to the people of Alberta to ensure a generous response to this appeal for funds.

(Signed) Herbert Greenfield, Premier.

#### CERTAINLY—YES!—NO!

A young lady recently sent this question to the editor of a ladies' weekly journal:

"Do you think it is right for a girl to sit in a man's lap, even if she were engaged?"

The editor spent some time in thought and then answered her as follows:

"Yes, if it were our girl and our lap. Yes, again, if it were some other fellow's girl in our lap. But, if it were our girl in some other fellow's lap, emphatically No! We don't approve of such triviality!"

A company has been incorporated at Bowden, Alberta, under the name of the Marshall-Canadian Mustard Company, capitalized at \$100,000 for the growing of mustard seed.

#### LETHBRIDGE OUTSCORES BELLEVUE

In a fast game on the Bellevue arena on Monday night Lethbridge put it over Bellevue to the tune of three to two.

The score at the end of the first period was two-one in Bellevue's favor, but Lethbridge came back in No. 3 with sufficient to make the count look like 3 to 2 in their favor.

Coleman played at Pincher Creek on Monday night and at the end of three periods balanced up with the home team. Two overtime periods were played to notch up the winning number, making Coleman winner by a score of 3 to 2.

It is somewhat of a coincidence that the three games played on Monday night, involving all the teams of the Croix League, should have had the same results at the end of the first and second periods, viz.: 2-1; and the final result 3-2. It is also singular that teams providing the music were the losers.

#### I. O. O. F. GRAND SIRE DEAD

Joseph Oliver, grand sire of the Independent Order of Odd Fellows, died at his home in Toronto Monday, the 9th inst. Mr. Oliver was in his 70th year, having been born at Erin, Ont., in 1852, but his parents moved to Toronto when he was three years old. He was mayor of Toronto in 1908 and 1909. He was a lumber merchant and a manufacturer. Besides being head of the I. O. O. F., he belonged to several other fraternities, among them the Masons, Orangemen and the Foresters. His wife and two sons and two daughters survive him.

#### MIXED FARMING TRAIN

Very great interest is being taken in the Special Mixed Farming Train that is to run under the auspices of the Department of Agriculture starting January 24th. This train is supplied free of charge by the C.P.R. and lectures will be given at each stop on the dairy industry and the raising of bacon hogs and mutton sheep. The train will stop at the following places: Acre, Jan. 24; Irricana, Jan. 25; Okotoks, Jan. 26; High River, Jan. 27; Nanton, Jan. 28; Vulcan, Jan. 29; Blackie, Jan. 31; Aix, Feb. 1; Stettler, Feb. 2; Castor, Feb. 3; Crocus, Feb. 4; Camrose Feb. 6; Strome, Feb. 7; Sedgewick, Feb. 8; Hardisty, Feb. 9; Coar, Feb. 10; Provost, Feb. 11; Busby, Feb. 12; Westlock, Feb. 13; High Prairie, Feb. 14; Falher, Feb. 15; Spirit River, Feb. 17; Sexsmith, Feb. 18; Grande Prairie, Feb. 20; Peace River, Feb. 22; Burns, Feb. 23.

Some splendid prizes are being offered at the Annual Provincial Seed Fair which is being held under the auspices of the Department of Agriculture on February 13th, 14th, 15th and 16th, in Edmonton. Entries close Feb. 9th, with J. D. Smith, department of Agriculture, and all exhibits must be in Edmonton at 6 p.m., Feb. 10th. Prize of \$400, \$60 and \$40 are being offered for the best all round exhibit made by any Agricultural Society. For the best exhibit of seed wheat, any variety, specially selected prizes of \$25, \$20, \$15 and \$10 are being offered. The A. P. Grain Co. offers \$20 for the best sample of Marquis wheat. For the best exhibit of oats, any variety, specially selected prizes of \$25, \$20, \$15 and \$10 are offered. F. Burns offers \$10 for the best exhibit of potatoes. Information and prize lists may be obtained from J. D. Smith, Seed and Wool Branch, Department of Agriculture, Edmonton.

Mr. Phillips, of the Coleman hockey team, has had to undergo an operation to remove a clot of blood from his face. Charlie Graham, of the Coleman team, is also incapacitated.

Mr. Gledhill, representing the Canadian Credit Men's Trust Association of Calgary, is in town this week in connection with adjustment of losses in the recent fire.

#### UNION BANK OF CANADA AIDS AGRICULTURE

Annual Report of the Union Bank of Canada Shows That This Institution Continues to Give Valuable Assistance to Farmers.

The 1921 report of the Union Bank of Canada now available to the public could not have appeared at a more opportune time.

The outstanding impression that is gained from examination of the Bank's statement is that the Bank has been particularly active in providing for the needs of its farmer clients. Current loans and discounts in Canada total over \$62,000,000 and demand loans in Canada secured by grain amount to \$7,296,483. These and other figures in the statement prove that the Bank is helping to finance the agricultural industry of the Dominion in substantial measure.

Dealing with the report as a whole, it is very reassuring to note that the Union Bank has been able to maintain a strong cash position. Total assets exceed \$152,000,000, and include gold and silver coin and Dominion notes amounting to \$14,229,789, Dominion and Provincial securities \$15,946,601, Canadian Municipal securities and other public securities totalling \$9,618,253, current loans and discounts in Canada \$62,010,007, and loans to governments and municipalities \$7,420,629.

Another indication of the strong position maintained by the Union Bank despite the very trying financial conditions which have prevailed this year, both at home and abroad, is the fact that a balance of \$541,656 was carried forward into the 1922 accounts, being \$400,000 greater than the carry-forward balance last year and the largest amount carried over in any year in the Bank's history. This decision of the directors to keep a reasonable portion of last year's profits available for the year 1922 shows that the well known conservative policy of this institution is cautiously adhered to.

The Union Bank has always been able to attract depositors and savings deposits now total \$79,409,815. The position bearing interest are even greater, amounting to \$37,313,939.

One of the important tests applied by financiers to a bank's balance sheet is to ascertain the percentage of quick assets held by the bank to its total liabilities to the public. In this respect the Union Bank shows up exceptionally strong, the percentage being 53.7 per cent, a highly satisfactory position.

The officials of the bank deserve commendation for placing before the public such a strong balance sheet, particularly in view of the fact that such a statement will serve as a stabilizing medium at this time.

Gossip is slight, if you only gossip the good things.

Some people get gossips from putting them into other people's business.

Take pains to be faithful and conscientious in business. It will bring you success.

Mr. and Mrs. Bird contemplate moving into their new house in West Blairmore within the next two weeks.

A man named Moss died in Nova Scotia the other day and an obituary article in the local paper stated: "It is hard to relate, etc."

A young man dropped into the Blairmore drug store the other day and asked for a hair brush for his wife.

"Rubber back?" queried Elwin.

"No!" said the young man, "brush her hair!"

Pencils are being made from potatoes and men's collars from milk. If some friend of humanity would only discover a method whereby the squeal of the croaker could be transformed into an article of diet and the wasted energy of the knocker harnessed and used for motive power, we would feel that the millennium was close at hand.

#### Have You Ever Thought of Settling in Beautiful British Columbia?

In a warm healthy climate, with sea bathing, hunting and fishing available.

You can do so in

#### Richmond

which is only half an hour from Vancouver City and all its attractions. Own your own home in British Columbia, where you can make a comfortable living on ten acres by fruit raising and poultry rearing.

Your market is next door.

216 Pacific Building, Vancouver

for full particulars. Jan 12-19

#### Mortgage Sale.

NOTICE IS HEREBY GIVEN that by virtue of an Order made in certain action wherein Thomas W. Hand is the plaintiff and William Alexander Borthwick is the defendant, the following lands and premises will be sold by public auction at the Town Hall in the Town of Pincher Creek, Alberta, on Thursday the 31st day of January, A. D. 1922, at 2 o'clock in the afternoon.

The North-east quarter of Section 10 (10) in Range Two (2) West of the fourth meridian, containing one hundred and sixty acres more or less, saving and excepting the reservations contained in the Grant from the Crown and the Certificate of Title to the said lands. The following buildings are said to be on the property: Dwelling house, log, one-story, 18x30. One stable, log, 16x28. Said buildings are in fair state of repair. Water obtained from a small spring and stream. Sixty acres are said to be broken. Two and a half acres of fence in fair state of repair. Nearest post office and school three miles. Nearest railway station and market town, Lundbreck, three miles. The soil is said to be black loam.

TERMS of sale are as follows: Ten per cent of the purchase money must be paid at the time of sale and the remainder within sixty days after sale. The property will be subject to a reserved bid.

For further particulars apply to THOMSON & JACKSON Solicitors for the Plaintiff, Pincher Creek, Alberta. Sgd. "A. M. MacDonald" L. J. S. C.

#### FOR SALE--

FORD TRUCK—In first-class condition, Dominion Royal Cord Tires on rear wheels (pneumatic), wobby tread tires in front, practically new, closed-in winter cab, removable sideboards. Will take \$550 cash for quick sale. Write or phone L. O. HARTSHORNE, Pincher Creek.

New Jersey has two and a half million human beings and about two thousand tin-horn important guys. The same proportion is contained in Blairmore.

Those people who claim we ought to work only two hours a day will never realize their dream, because such a condition as that would necessitate the working of the criminal court machinery night and day.

A farmer hitched his horse to a telephone pole. No sooner had he done so than an irate policeman came up and ordered him to move on. The farmer protested. "Well, what in Sam Hill does that sign mean then? Mine for hitching!"

British Columbia has amended her motor vehicle act to assist municipalities, giving a share of the revenue collected under this section back to the municipalities on a basis of population. This appears to be fair and sensible.

MR. H. D. SHAW  
Newly elected Vice-President and General Manager of the Union Bank of Canada, who presented at the recent annual meeting an exceptionally strong statement.

Complimentary copy of our Year Book, giving statistics of the province of Canada may be obtained from any of our branch managers.

UNION BANK OF CANADA

Grain loans total \$7,295,183. Loans to Governments and Municipalities are \$7,420,529.

Deposits totalling \$116,723,755 are reported.

Net profits for the year amounted to \$1,312,833, which is about \$300,000 less than the previous year.

Grain loans total \$7,295,183. Loans to Governments and Municipalities are \$7,420,529.

## Canada's Needs

## No. 3—A World Market

In urging the view that one of Canada's needs at the present time is a world-wide market for the products of its farms, forests, fisheries and mines, but chiefly its farms, perhaps it would be nearer the mark to say that Canada needs national action by its Federal Government to direct the products of this country to those foreign markets where there is a demand at a profitable price for the very things this Dominion requires to sell and can raise in abundance.

Of all the great producing countries of the world it is possibly not incorrect, as far as the specific market is concerned, Canada is the only one of all in producing trade with other countries, at the present time, before the war, Germany, under the direct guidance of its national government, was pushing its wares into every nook and corner of the world. Great Britain has for long years been wide awake and active in extending its trade all over the world, and Government agents have been a big factor in developing British trade and the sale of British-made goods in countries both civilised and uncivilised. The United States, too, handicapped though it was because of a lack of merchant shipping, has not neglected its opportunities and U.S. consular representatives are active agents in promoting United States trade.

But Canada has done little or nothing. The efforts put forth have been puny and puny, peevish and pound foolish, lacking in vision and totally devoid of real initiative and aggressiveness.

In Canada, both Government and people have, for the most part, been quite content to allow the export trade of the country to be handled and controlled by other countries, with the natural and inevitable result that it has always taken second place to the interests of those countries through which it is controlled. The Government has had wide awake and trained representatives in foreign countries to size up the situation there, inform our Government of conditions of which Canada could take advantage, and no national machine whereby such opportunities as presented themselves could be quickly seized.

For example, it has recently been stated by a writer who quoted facts and figures in support of the statements made, that during the past year when livestock were a drug on the Western Canadian market and where a price could not be realized to cover the costs of production there was an active demand at high prices for cattle in Mexico, where, because of the many years of revolution and political upheaval, the livestock of the country was reduced to a minimum. In Mexico, this writer declared, was a ready market at high prices for the very animals which Canada had in abundance and was unable to sell.

In Mexico, also, high prices, almost excessive prices, were being paid for wheat and flour, while the best price obtainable by our Western Canadian farmers for their wheat was less than the cost of growing, harvesting and marketing the wheat through the old methods and channels.

Why has Canada not built up a department of its national government which would, through foreign representatives, make immediately aware of all conditions, and which could at once set national machinery in motion to take full advantage of the opportunities thus presented? Instead, we have remained idle, trusting to Old World conditions to right themselves so that our wheat could flow with a profit to Liverpool and London, or dribble into the United States, and, with our live cattle shut out of Britain, we have imposed of our cattle at a loss or made meagre sales on the Chicago market.

Canada is a full-fledged member of the League of Nations; our statesmen and politicians, public men and newspapers speak of Canada as a nation; we may as a people be beginning to think nationally, but we have yet to begin the important work of acting nationally. Yet there is no country today in a better position to undertake a national commercial undertaking, and no country stands quite so badly in need of it.

Canada possesses a great system of national railways—the largest mileage under one management of any railway in the world—and it also possesses the greatest private-owned railway in the world, and the most efficient. Canada likes to own and operate its own railway, and in this it stands alone in all the world. The national railway and national mail service are both operating at a loss, with annual deficits of between fifty and one hundred million dollars. What they need is more business. The whole country is suffering for lack of markets wherein to sell its surplus products at a price which will yield a profit over production costs. Yet with all this national equipment ready to our hands, the Federal Government has not selected the opportunity of organizing a real department devoted to the development of foreign markets for Canadian produce.

It is time Canada had a national trade organization with aggressive expert representatives in all foreign lands offering even a remote chance of being a profitable field for Canadian trade.

## The Golden Age

## The Luxuries of the Past Are Only the Common Comforts of Today

The comforts of 1921 are the luxuries of 1870. What household of that time could obtain the devices which are the common indispensable equipment of our day? Our young men and maidens who demand a standard of living which the youth of 1870 had never thought of may be distressing to old-fashioned people, but they are obeying natural forces. The Victorians themselves were not content with what satisfied the eighteenth century. That all these changes have made for happiness we may feel no compunction to believe. But there is nothing in the past to justify this in the present, that the young people of the present will be content with what satisfied us in our youth. They may be going off on the road to the true golden age; they may have chosen the primrose

path which leads to the everlasting bonfire. What is certain is that they will not stand still—London Daily Telegraph.

Always Ready and Reliable—Practically all fishing and trapping information can be remitted with Dr. Thomas' Electric Oil. Simply rub it on the sore spot and it is quickly absorbed. The electric oil's healing power is converted to the fish's body which is quickly soothed. This fine old remedy is also a specific for a number of cuts, scratches, bruises and sprains. Keep a bottle handy always.

## People at Sea Had Real Christmas

Programme Was Prepared by Canadian Pacific Steamships Limited. Special arrangements were made by the Canadian Pacific Steamships Ltd. for the annual celebration of Christmas which took place on their ships in mid-Atlantic. Christmas trees with presents for old and young. Divine Service, a real old-fashioned Christmas dinner, a Christmas dance, games and sports of all kinds for the children and grown-ups too, were some of the highlights included in the Christmas Day programme.

## Flax Crop Sold For Seed

An average yield of 23% bushels per acre of flax seed was secured from a 25-acre field in the Winnipeg district, according to advice of C. E. Howe. The flax was of high quality and the entire crop was sold for seed at a substantial premium over the market price.

One hundred years ago the only known use for rubber was for repairing pencil marks.

Minard's Liniment for Distempers

## Grain in Storage

Wheat Stored in Public Elevators Shows an Increase

Grain statistics issued by the Dominion Bureau of Statistics for week ending Dec. 30, 1921, show an increase of 412,379 bushel in the amount of grain stored in Canadian public elevators. The figures were as follows:

Oats, 112,491 bushels; barley, 265,044 bushels; and rye, 36,835 bushels.

Wheat and flax show decreases of 17,589 bushels and 22,750 bushels respectively.

## WHY BEAUTY FADES

A Condition Due Entirely to Poor Water Blood

The girl who comes home from a school or from work thoroughly tired out will be fortunate if she escapes a physical breakdown, because this girl, as she is, is prone to a number of diseases which must not be disregarded if her health is to be preserved.

She may be thin and delicate, and improve the patient becomes thin and angular. She not only tires out easily but suffers from headaches, toothaches, and the like. The girl may go from bad to worse, if prompt steps are not taken to increase and enrich the body supply.

To make the girl robust and healthy, she should be given a good diet, and good sports.

Dr. Williams' Pink Pills will go far to help the girl, and she should be given a good diet, and good sports.

# Resignation Of Briand As French Premier Came As A Surprise

Paris.—Aristide Briand has resigned from the premiership. Premier Briand's resignation came with dramatic suddenness in the Chamber of Deputies, for the Premier had brought the opposing members of the cabinet into accord with his policy, and, by a powerful speech in the chamber, had apparently won over the great majority to his side. His blunt eloquence evoked a tremendous ovation and when he abruptly declared his intention of withdrawing from the government, the members of the chamber seemed overwhelmed.

Although the retirement of Premier Briand was unexpected, it was apparent from the beginning that he felt keen resentment against the many obstacles placed in his way in the important negotiations which he had been engaged in. His hold on the confidence of a man aged 70, physically fatigued throughout his entire speech.

Notwithstanding this, however, seldom has Briand risen to the high pitch of eloquence attained today, when in a voice trembling with suppressed emotion and fusing his colleagues on the ministerial benches, he said: "A statesman has no right to go to the post of battle if he has not the certainty that he shall not receive bullets from behind. He can face the bullets of the enemy, but he must not receive any from his own country."

M. Briand called upon President Millerand immediately after leaving the chamber. He remained with the president only a few minutes, then he informed the press:

"My resignation is absolutely final. I do not wish to govern under such conditions. Of course, I shall not return to Cannes, but I hope my resignation will not cause cancellation of the Geneva conference."

With M. Briand went his entire cabinet, and, after conferring with the presidents of the Senate and Chamber, M. Millerand called upon M. Poincaré to form a new ministry.

## Driver's Quick Action Saves Many Lives

Bomb Thrower at Car Goss Wide of Mark

Belfast.—A bomb was thrown at a tramcar bearing seventy-five persons to their work in the Crumlin Road district. The driver of the tramcar, who had not fully opened up when he heard a revolver shot, resulted in the missile going wide of the mark. The passengers were greatly frightened by the explosion, which splintered the car. A man and his wife living nearby who went to the door of their house to learn the cause of the commotion were shot dead by a volley of rifle fire which swept the streets.

## Burma Welcomed Prince

Visit Said to be Most Successful in Tour

London.—Reuter's London correspondent writes that no episode in the tour of the Prince of Wales through India has been more successful than the visit to the Rangoon docks. The enthusiasm was so continuous that officials declare that they seriously believed that if the Prince would stay another week to mix with the people the political discontent in Burma would disappear entirely.

## Progressive Party Will Maintain Identity In The Ottawa House

Winnipeg.—Farmer-Progressive members of parliament will support the government in putting into effect reforms which have been advocated by the National Progressive Party, but the identity of the Progressive Party will be maintained. It was first planned by Hon. T. A. Crerar in his first speech since the election, when he read to the convention of the United Farmers of Manitoba, a resolution adopted at the secret conference of Progressive members-elect at Saskatoon, December 20. This resolution was read as follows:

"That this meeting of the western supporters of the National Progressive Party, having taken under consideration the existing political situation in Canada and the course the Progressive Party should follow, is of the opinion that the gravity and importance of our many national

## Believe U-Boat Being

Used By Bootleggers

Report Alleged Traffic on Pacific Coast Is Lureative

Ottawa.—While naval authorities here cannot say whether or not a submarine is being used in an alleged bootlegging traffic along the Pacific coast between Canada and the U.S., they are nevertheless reporting that the undersea "mouse boat" is in the possession of the Canadian Government. Canada has only sold one submarine in recent years, it was learned at the department of naval affairs, and these were disposed of to an Atlantic coast port. It was understood that the engines from both boats were sold by the purchaser to an Ontario municipal corporation. Recent reports from Seattle indicated the belief that a submarine, sold by the Canadian Government to private citizens was doing a lucrative liquor transportation business between British Columbia ports and west coast United States cities.

Vancouver.—Reports from Seattle that Canadian submarine, for junk, was carrying shipments of British Columbia liquor into Seattle, scouted here. No submarines have been sold, but the cruiser *Harrow* of the Canadian navy during the war, was bought for junk by a Seattle firm two years ago.

## Idle Land Incurs Loss

Farmers Urged to Substitute Oats for Part of Summerfallow

Saskatoon, Sask.—An appeal for experiment on the part of farmers in the use of a substitute oats sown in rows at set for summerfallow was voiced at the agricultural societies convention by Prof. Manley Champin, of the Reid horticultural department of the University of Saskatchewan. Prof. Champin pointed out that particularly under present conditions, account must be taken of the loss incurred by leaving land idle in summerfallow, a loss which had to be written off against the cost of grain production. There was also an address on farm management systems by W. C. McHugh, superintendent of the Brandon Experimental Farm.

## Marked Decrease In Juvenile Crime

Report Shows Fewer Convictions During First Year of 1920

Ottawa.—Juvenile crime is on the downward trend. That is pointed out in the forty-fifth annual report of the criminal statistics of Canada.

"It is noted," says the report, "that juvenile crime is on the downward trend. In 1919, it was shown that 20.3 per cent of the total convictions of indictable offences was of children under 16 years, which figure is a decrease of 2.3 per cent from that of the previous year. In 1920, the percentage of juvenile crime to the total had dropped to 18.19. Previous to 1919 for a period of 14 years it had been gradually rising."

## Irish Government Will Get Dockyard

Halibutown at Queenstown Will Be Stripped of Machinery

London.—Officials of the Halibutown Dockyard, Queenstown, have been informed, according to the Queenstown correspondent of the London Times, that when the dockyard is finally closed it will be transferred to the new Irish government. It will be stripped of its machinery first.

Patronize your local merchant and thereby help to build up your home town and community.

## In Closer Touch With Motherland

Burnham Sees Good Results From Increased Trade

London.—Lord Burnham, proprietor of the Daily Telegraph, speaking at the production of a film illustrating the meetings of the Imperial Press Conference, of which he was chairman, held in Canada some time ago, said there was no doubt that, as a direct result of the conference and the intimate contact it brought leading British journalists into Canada from Halifax to Victoria, the great daily newspapers of London and the province had largely increased their intelligence, department regarding Canada and were carrying more Canadian news than ever before.

Lord Burnham went on to refer to the correspondence which was being obtained by Canadian daily newspapers through the arrangement entered into between Reuter's and Canadian Press Limited, whereby a valuable supplementary cable service of British news was going direct from London into their offices. Not the least important part of this new departure was the access that the Canadian Press thus got to the news of the British Press Association, the co-operative organs of British newspapers covering news of the British Isles in much the same way as the Canadian Press covers the news of the Dominion.

It was declared that as the United States and Japan were building battleships, Great Britain should do the same.

Another suggestion was that the Government should advance 10,000,000 pounds sterling to shipping companies in order that they might start the building of passenger ships.

It was declared that as the United States and Japan were building battleships, Great Britain should do the same.

## THE ENTERPRISE

I understand that Miss Ring,  
five years old, is prepared to  
helping their wives clean  
house.

There are said to be men who  
would suggest that special com-  
forts be provided for these chaps  
in future. It is cruel to allow a  
fellow to lay on the ice to catch  
his wind or otherwise recuperate  
with the hockey ice as a pillow.  
Maybe, the next time Blairmore  
goes to Coleman they will bring  
with them a few pillows, these  
can be placed at points thought  
most convenient for these fagged-out  
boys to take a rest.

## OF Local Interest

For funeral Bowers phone 212,  
Crown's Nest Pass Undertaking Co.

J. H. Rix is still confined to his  
bed through illness.

The Alberta & British Colum-  
bia Power Co. are this week  
stringing wire through Blairmore.

The Canadian on-ice tourna-  
ment for 1921 show a decrease of \$380,-  
234 over 1920.

W. Bird, W. Scott, G. N. Elwin  
and W. J. Hartlett accompanied  
the local hockey team to Taber on  
Monday.

The customs inland revenue for the  
city of Fernie for the year  
1921 was \$79,289.05 in excess of  
the year previous.

Alex McCulloch, vice-president  
of the Lubbeck Local, U. F. A.,  
is attending the Farmers' con-  
vention at Calgary this week.

Meers, Powell, Whiteside, Bol-  
ton, McBurney and Kellock,  
of Coleman, are this week taking in  
the curling bonspiel at Lubbeck.

Following is the official return  
handed out by the returning officer  
of Macleod federal riding.

George Gibson Coote 6036, H. M. Shaw  
1676, James Fairhurst 1407,  
Joseph E. Gillis 922.

The Calgary and Lethbridge  
curlers are well away on their  
annual bonspiels. Rinks from all  
over the province are competing  
in both cities. It is also the  
time of the big winter carni-  
val in Calgary.

Within the next three months  
Fernie expects to be getting its  
supply of electricity from the  
plant of the Alberta and British  
Columbia Power Company at Bull  
River.

Beginning February 1st, the  
fees charged shippers of the  
district for certification of consular  
invoices will be \$2.75 for ordi-  
nary invoices and \$1.10 for invoices  
on returned American goods (the  
yellow form). Shippers remitting  
by personal cheque should add  
15 per cent, to cover bank charge.

Joseph Oliver, grand sire of the  
Independent Order of Oddfellows  
and former mayor of Toronto and  
prominent lumber merchant, died  
at Toronto on January the 8th,  
following a three months illness.  
Mr. Oliver was in his seventieth  
year.

A large number of local hockey  
fans journeyed to Bellevue last  
Thursday night to see the Taber  
team go down to defeat by a score  
of 6-5. Bellevue scored four goals  
in the first five minutes, and the  
period ended with the score 4-4 in  
favor of Bellevue. The second  
period was faster, hockey and  
Taber managed to creep up to 4-4  
while Bellevue added one more.  
Play was very even in the last  
period, both teams finding the  
net, making the score 6-5 for  
Bellevue. Walter Scott of Blairmore,  
referred the game.

Preliminary communications  
with the American Consul at  
Fernie relative to passport matters  
should be by eight-lettergram or  
preferably, by mail. It is seldom  
possible for the Consul to give the  
applicant a satisfactory opinion  
on the strength of a long-distance  
telephone message or a short day  
telegram. Parties will con-  
sequently save time, money, and  
annoyance to themselves as a  
rule, by writing or communicating  
by a full night lettergram.

After witnessing some of the  
blows pulled off by Coleman  
players on Friday night last, we  
would suggest that special com-  
forts be provided for these chaps  
in future. It is cruel to allow a  
fellow to lay on the ice to catch  
his wind or otherwise recuperate  
with the hockey ice as a pillow.  
Maybe, the next time Blairmore  
goes to Coleman they will bring  
with them a few pillows, these  
can be placed at points thought  
most convenient for these fagged-out  
boys to take a rest.

Mrs. Sheed, of Pinche Creek, is  
the hospital attending her  
daughter.

Rev. C. G. MacLachlan, superin-  
tendent of Baptist missions,  
stopped off at Blairmore for a few  
hours on Saturday to visit friends.

In the race track in Maryland  
in 1921 the amount of money bet  
was \$54,121,702, and the State  
received in taxes \$805,185.

The local curlers are hard at it  
now, games being played  
nearly every night. The Char-  
bonnier trophy for local competi-  
tion tended to enliven proceedings.

Canada's new five cent nickel  
is made of pure Canadian nickel. A  
similar coin in the United States  
has but 25 per cent nickel, the  
balance being copper.

Local Masons will hold their  
annual ball at the opera house on  
the night of Monday next, Janu-  
ary the 23rd. Bauff orchestra  
will furnish music.

We understand that Mr. W.  
Cole is preparing plans for the  
building of the Rex theatre at  
Bellevue, which was recently  
totally destroyed by fire.

Miss Jessie Sheed underwent  
a rather critical operation at the  
local hospital on Monday even-  
ing. We learn that her condition  
is improving as well as can be ex-  
pected.

A special court sitting was held  
at the Masonic hall here on Tues-  
day, presided over by Judge Mac-  
Donald, of Macleod. Only one  
case was dealt with.

Pinche Creek lost to Leth-  
bridge in that city last Friday  
night, by a score of 9-4. They  
also lost to Coleman on Monday  
night, on their home ice. The  
score was 3-2.

In the first nine months of 1921  
cargoes totalling 7,912,737 tons  
passed through the Panama can-  
al, or more than 200,000 tons in  
excess of any one year during the  
war.

A good newspaper helps to  
make a good community. A good  
community helps make a good  
newspaper. Hand in glove; news-  
papers and communities progress  
together.

Many men spend their time  
building hurdles for competitors  
when they might be building  
hurdles for themselves. There is  
more money and satisfaction in  
hurdles than there is in hurdles.

Artist: "This is a very fine  
picture, the last in my exhibi-  
tion, but you can have it for half the  
catalogue price."

Friend: "What does the cata-  
logue cost?"

A surprise greeted the members  
of the local hockey team, follow-  
ing the last in my exhibi-  
tion, when they received a  
cheque from Mr. Charbonnier for  
\$50.00 in recognition of their good  
work.

W. R. Allan, of Allan, Kilian  
& McKay, was elected president  
of the Union Bank of Canada at  
the annual meeting held in Win-  
nipeg recently. He succeeded  
John Galt, president since 1912,  
who has retired owing to ill health.  
Mr. Galt remains a director.

A business man arriving late to  
luncheon, was informed by the  
toastmaster that he would be  
required to sing a solo as a penalty  
for being late. The business man  
promptly replied that he couldn't  
sing without notes and everyone  
in town had them. He was ex-  
cused.

One of the least known, but  
most extended uses of rope paper,  
is that of insulating the tiny wires  
in telephone cables. Each wire  
is wrapped in a different color  
paper for purposes of identification  
in case something goes wrong with  
the cable. Although 9,000,000  
pounds of rope paper are used by  
the Bell system each year, it is  
very scarce, and the sources of  
supply, owing to the highly tech-  
nical nature of its manufacture,  
are exceedingly limited.

## THE ARENA

Public Skating at 5 p.m. Doors open at 7:30 p.m. Children must be off the ice  
at 9 p.m. when the bell rings, unless accompanied on the ice by parent or  
guardian. High school boys and girls who wish to skate after 9 p.m. will  
have to pay the difference between the \$1.00 ticket and \$3.00. Ladies and  
\$6.00 for General tickets. No tag or rough games will be permitted at any  
time. Any individual violating this rule after warning will not be permitted  
to use the Arena.

**FRIDAY, JANUARY 20TH**—Third Big League Hockey Game at the Arena.  
—BELLEVUE vs. BLAIRMORE

**HOCKEY**—The league game of the season will be played at the Arena on  
FRIDAY, January the 20th. There are two towns in the Crow on more  
friendly terms than Bellevue and Blairmore, which comes to the hockey  
game each year to win the cup. It is a grand game from start to finish.  
Bellevue fans can reserve seats for this game at Barbour's Drug Store in  
Bellevue. The plans and tickets will be ready Monday, January 18th.  
Season Seats 75c. Rush Seats 50c. Children 25c.

The next league game at the Arena will be on Wednesday, February the 8th  
when Coleman comes to Blairmore.

**MONDAY, TUESDAY, WEDNESDAY, THURSDAY and Saturday**

—Afternoon Skating 2-5:30 p.m. Evening Skating 8-10 p.m.  
Admission for General Skating—Adults 25 cents; Children 15 cents.  
Season Tickets for General Skating—Gents \$5.00; Ladies \$3.00; Children \$1.

The above Schedule is subject to change.
